

Nursing Homes

Odour control with Ozone-

The effective, environmentally friendly solution

“Ozone or “activated oxygen” is probably the most powerful and effective natural cleaning agent known to man.”

For this reason, its use in nursing homes, care homes, hospitals and surgeries is already well-established. Ozone Industries Ltd is the UK market leader and leading manufacturer of ozone generators for nursing homes in the UK.

Cleanliness is a key consideration for all occupants and administrators of nursing homes. First impressions of cleanliness are important to potential residents, their families and visitors. Until recently, there was sometimes no alternative but to put up with unpleasant lingering smells, whether personal or caused by food preparation. Trying to “mask” the smells using fragrances has only compounded the problem. There is now a **Natural Solution** using ozone.

Ozone reproduces the freshness of the outdoors by destroying the bacteria that causes odours. Having reacted with the bacteria, ozone quickly and safely reverts back to oxygen, it leaves no harmful residues.

Our range of portable ozone generators are ideal for moving from room to room as a key part of a complete cleaning regime or for dealing with isolated odour problems.

Not only is it genuinely effective, it is also “green”, unlike the use of chemical fragrances.

Technical Specifications

"Destroys all unpleasant organic odours"

AirMaid 2300 FIXED

Dimensions: 10 x 142 x 75mm
Power Rating: 12 Watts
Voltage/Freq: 220 - 240V, 1 Ph, 50/60 Hz, 110V
Ozone Output: 40mg/hr - 70mg/hr

Treats areas up to 100m³, for fixed applications such as washrooms and corridors

AirMaid 3280 PORTABLE

Dimensions: 302 x 115 x 118mm
Weight: 2.1kg
Power Rating: 12 Watts
Voltage/Freq: 230V (110V Option)
Ozone Output: 100mg/hr

Treats areas up to 150m³, for portable applications such as Hotel Rooms.

AirMaid 5100/5200 PORTABLE

Dimensions: 570 x 250 x 312mm
Weight: 5100 - 5.5kg • 5200 - 5.8kg
Power Rating: 5100 - 50 Watts • 5200 - 100 Watts
Voltage/Freq: 230Vac, 50-60Hz
Ozone Output: 5100 - 1g/hr • 5200 - 2gm/hr

Treats areas up to 1000m³, for portable applications such as large hotel bedrooms, conference facilities, bar areas

Note: Maximum room sizes are calculated based upon an unfurnished room. For applications involving restoration of clothing or furniture, please refer to your distributor or Ozone Industries.
